**CARRIED.**

Old business : Perch Crescent KGS group was out to do survey on Perch Crescent.

6. New Business: There were no new resolutions .

**CARRIED**

Committee reports: A landfill meeting was reported to council by both Warren Coghlan.

Strasbourg Fire Department Report : Council and administrator attended the meeting of October 15th . It had been a long time since council and the Strasbourg Fire Department got together. Various concerns were discussed. One reminder to the public is that when Fire Department or EMT's are out, the road belongs to them . Please respect the distances the emergency personal outline. It was an informative meeting with another meeting coming up soon in regards to new agreements.

PARCS Report: The PARCS convention as usual was a well planned event. The board puts a lot of time in effort into this event. For myself I go to learn. The most beneficial for me was on Saturday afternoon . Water Security , Community Planning , Ocean and Fisheries each gave a shortened overview on what their roles and responsibilities were. The questions and answers were very interesting from the floor .

Correspondence: Sharon Moreau read and asked to submit a letter to council . It is in regards to what I would term hearsay or some may call gossip. Please keep in mind those who except a role in public office know that they are always front and

centre for public scrutiny. Sometimes the public misunderstands what is going on and relates it to others, unintentionally, in error. If you have any questions please call, sometimes at meetings I assume people understand what is been said .

The meeting was adjourned at 10:42 followed with open forum.

Following open forum council went into closed meeting for planning and development.

Next Meeting November 24 th , 10 O'clock.

DATE: November 24/2018
