

## *Resort Village of Island View*

*To Recreational Vehicle Owners.*

Please be advised that on May 27th at the regular meeting of council that the amendment to the Zoning Bylaw-2015 was completed . In this amendment they replaced the line that stated "No Recreational Trailers" to read Permitted Recreational Trailers are allowed on the West side of Marine Drive. (known as the old development).Permit to be reviewed annually at budget time. These trailers are to have septic hookup and no more than two trailers per lot. The permit for the year 2018 is \$500. /Trailer.

Recreational Trailers are allowed on the East side of Marine Drive (new development) for a period no longer than five years to allow time to prepare for their principle residence. A cost of \$500./ per trailer.

People enjoying Guest's for less than ten days are exempt from this fee. Please keep in mind that if you are an owner of an principal residence you are allowed one trailer on your lot and it can be used occasionally but not full term .

The permit is to be posted at the front of the lot visible to the commissionaire . Failure to acquire a permit will trigger the General Penalty bylaw, which is in place, or a request for removal of trailer.

For further information the Zoning bylaws are posted on the Island View Web page. If you have any questions please call.

I hope everyone has a healthy and happy summer.

Thank You

Olga Thompson,  
Administration
